Rebuilding Our Community, One Person at a Time

Issue 2014-#14
April 02, 2014

Friday's Speaker

Michael S. Gisondi - Winning

Just as athletes learn how to win, each of us can learn the skills to assure our success in life.

Mike Gisondi has seen that play out in the various aspects of life.

He draws on over 32 years of experience in the business of space ... from experiments on Spacelab modules, to Shuttle integration of payloads ... from the planning and development of the International Space Station as well as our next steps with a commercial spaceport. Mike is currently working on the next generation spaceship - Orion.

Mike also draws on experiences of life ... from having fun in college to raising a family.

Mike shares a story of what a young kid learned about playing basketball and life ... and how those lessons connected with positive, winning attitudes that all of us can use in our daily lives.

Originally from upstate New York, Mike holds a Bachelor of Science degree in Civil Engineering from Clarkson University.

Mike has given motivational talks on a range of topics from space to idealism, from women's rights to great speeches! His motivational spots have been heard on radio stations in the US, Canada, Europe, Australia, and across Africa!
